## PROFILE

UX/UI Designer at Matrix with a B.A. in Instructional Technologies and a foundation in front-end development. I design intuitive interfaces for complex systems, translating user needs into clear flows and consistent, scalable design systems. I combine analytical thinking, attention to detail, and AI tools to support an efficient design process.

## SKILLS

**DESIGN** Figma, Illustrator, Photoshop, Wireframing, UI Design, UX Flows, Prototyping, Design Systems

**AI** Generative AI for ideation, visual exploration, content & workflow acceleration

**DEVELOP** HTML, CSS, JavaScript, C#, Unity, SQL

**TOOLS** Rider, Postman, Valentina Studio, Articulate 360, Visual Studio

## EDUCATION

**Holon Institute of Technology** B.A. in Instructional Technologies, UX/UI & web development track

## EXPERIENCE & SERVICE

07/2026 PRESENT
**UX UI DESIGN**
**matrix**
Design user flows, wireframes, and high-fidelity prototypes in Figma, building reusable components and maintaining design systems.

2023 2026
**Customer Experience Lead**
**The Blue Rooster**
Manage guest flow and seating logistics; resolve real-time service issues to keep satisfaction high

2019 2021
**Account Management**
**Union Bank**
Managed select accounts & investment portfolios; handled sensitive transitions with discretion.

2021 2022
**Squad Commander**
**IDF · Magal**
Commanded and trained a squad across operational and instructional responsibilities.

## SELECTED WORK

### AI Sales Solution for Cognyte

UX · AI WORKFLOWS

A "safe-space" UI and AI-driven workflows inside Salesforce that turn manual reporting into a proactive tool, lifting adoption and reducing friction for reps and managers.

REPS ↗ / MANAGERS ↗

### AI Instructional Development Agent

UX UI · Python · Multi-Agent AI

Defining the architecture and user flow for a "super-agent" that automates instructional design with LLMs, with user research on optimizing designer and AI interaction.

illustrative video ↗ HIT FACULTY ↗

### UI/UX Designer Pasta Maker Companion App

UX · FIGMA PROTOTYPE

A complete interactive prototype for a smart pasta-maker mobile app, guiding users through the preparation process with interactive tools and an accessible UX.

FIGMA PROTOTYPE ↗

### Interactive Game Platform & Editor

UNITY · C# · UI

A full ecosystem (client, server, editor) with a custom level editor and all UI assets designed from scratch for an intuitive content-creation experience.

LIVE GAME ↗

### MushBot, AI Mushroom Identification

UX · JAVASCRIPT · API

A web app with dynamic UX, smart safety-alert logic and an automatic recipe generator for edible species, powered by the Kindwise and Wikipedia APIs.
